SUMMARY OF THE REASONS FOR DECISION:

The computer printout entitled *F:\celebs\[child's name]\aaron_2 [fake].jpg* is classified as:
Objectionable.

The computer printout presents an image of a naked, pre pubescent boy in a manner which is sexualised for the purposes of titillating an audience with a sexual interest in children.

The publication has been considered under s3(2)(a) of the Films, Videos, and Publications Classification Act 1993 and is found to promote and support the exploitation of children for sexual purposes. The publication is therefore deemed to be objectionable.

The classification of this publication interferes with the freedom of expression as outlined in s14 of the New Zealand Bill of Rights Act, but this is an outcome consistent with Parliament's intention that publications falling under s3(2) are deemed to be objectionable. The classification is also a reasonable limitation on the freedom of expression that reflects the concern of "a free and democratic society" to limit the availability of publications that promote and support the exploitation of children for sexual purposes.
